

Our HEROES Wear Masks!

Help stop the spread of Covid-19. You must wear a mask:

- in public places.
- in areas such as shared offices, hallways and restrooms where social distancing is difficult.
- if you are coughing or sneezing for any reason.

Homemade cloth masks help keep everyone safe. Just remember:

- Masks are for single person use and are not to be shared with others.
- Masks are to be washed after each use in washer with laundry detergent and dried in the dryer.
- Masks are not to be worn when soiled or damp.
- Masks should not be placed on babies under two years of age.
