

# KIDS ON THE BLOCK

## Who are the Kids on the Block?

The Kids on the Block is a tightly-knit group of lovable puppets who have been entertaining and educating young audiences all over the country for three decades. The troupe is comprised of puppets with and without disabilities who address the broader themes of friendship, community building, the importance of expressing feelings, celebrating differences, and encouraging kids and adults to ask questions about disabilities that they may be afraid to ask someone they meet in public.
